

Association Des Industries d'Haiti
Reconnue d'utilité Publique

Pétion-Ville, June 25th, 2024

Mr Jean Philippe Boisson
President of AmCham Haiti

Dear Mr. President,

The Association of Industries of Haiti (ADIH) would like to express its deepest gratitude for your joint letter dated May 7, 2024, addressed to Senators Schumer and McConnell, and Representatives Johnson and Jeffries, in support of the renewal of the HOPE HELP Act. Your intervention is not only an act of solidarity but also a significant gesture that strengthens the position of the Haitian private sector and the efforts made to preserve the trade benefits on which a large part of our economy depends.

The support from AmCham Haiti and AmCham DR is invaluable to ADIH, which has always pursued this matter through private-private and public-private partnerships. Your letter has not only reaffirmed the importance of the Haitian industrial sector but also highlighted the numerous mutual benefits that this renewal would bring.

We are confident that by the end of 2024, the renewal of the HOPE HELP Act will be announced to preserve the formal jobs that the textile sector brings to our economy. With influential and committed partners like you, we have the hope of overcoming current challenges and building a more prosperous future for Haiti together.

Once again, ADIH warmly thanks you for your dedication and asks you to accept, Mr. President, our distinguished salutations.

Wilhelm Lemke
Président
